

Welcome to Edgenuity[®], Parents!

We are genuinely excited to embark on a journey toward academic success with your student. There is a great deal of information available to guide you and your student along the way.

Included in This Guide

- Edgenuity Overview
- Engaging Lessons: Overview
- Tips to Help Your Student Succeed

Edgenuity Overview

Edgenuity provides an exciting and engaging educational environment that is designed to capture attention and draw students into the interactive world of online and blended learning.

Edgenuity has provided online and blended learning solutions for students since 1998. Through our experience with teachers, students, and parents, we built an engaging and effective curriculum that connects science, math, language arts, and social studies to your student's everyday world.

To ensure your student's experience with Edgenuity is successful, we wanted to introduce ourselves and provide information that will enable you to partner with us in this goal. We are thrilled to have you and your student join the Edgenuity family. Our best to you and your student!

Engaging Lessons: Overview

Using a combination of animations, simulations, video-led direct instruction, relevant websites, and a myriad of activities that support the lesson's topic, students have a wealth of information to help them achieve mastery. Edgenuity strongly believes that each student acquires information in his or her own way, so our courses provide students with a variety of activities that support the ways students learn best.

“I feel engaged and involved. It’s motivating. The challenge is refreshing.”

Andrew | High School Student

Elementary Lessons

Instruction: Explicit skill instruction in an accessible, conversational tone, with thoughtful visual support

Supported Practice: Practice with “training wheels” on – passage audio and re-teaching support student performance visual support

Independent Practice: Practice with less support and immediate feedback

Assessment: Practice with less support and immediate feedback

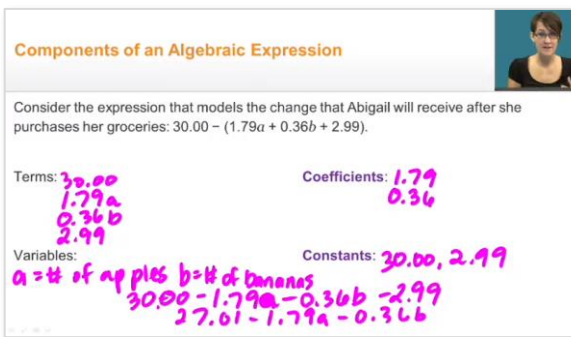

Middle and High School Lessons

Instruction: Warm-up, Instruction, and Summary activities delivered by on-screen, expert teacher

Tasks and Assignments: Embedded tasks and assignment activities allow students to practice applying the lesson objectives

Assessments: Students demonstrate mastery of lesson objectives in the form of lesson quizzes

Tips to Help Your Student Succeed

FOCUS ON THREE THINGS: TIME, EXPECTATIONS, AND ENCOURAGEMENT.

- **Time:** If your student works on Edgenuity courses on-site at school, encourage your student to review his or her notes before taking assessments.
- **Set High Expectations:** If your student works on Edgenuity courses on-site at school, encourage your student to pay close attention and to take notes during lesson activities. If your student is able to work from home, encourage her or him to set daily goals with the instructor. Setting and achieving daily goals helps keep students motivated and determined to succeed.
- **Ask for Feedback and Provide Encouragement Every Day:** Check in with your student by asking:
 - What did you learn today?
 - What did you accomplish today?
 - What did you find challenging today?
 - How did you overcome those challenges?
 - How can I help you achieve success?
